

# 1174/1177 SILAGE INOCULANT

Pioneer® brand **1174** is a silage inoculant product designed to:

- Help improve fermentation, retain nutrient content and enhance digestibility of ensiled forages.

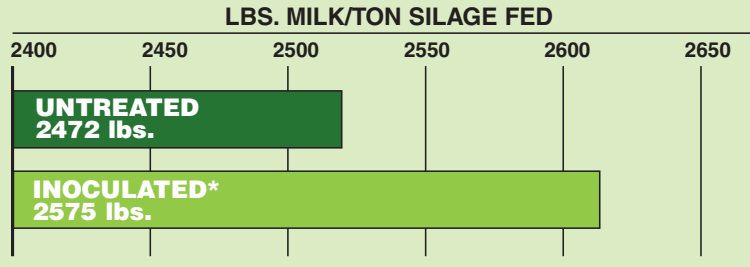

Available as a water soluble product (1174) in packaging suitable for use in tank mixes or with the Pioneer Appli-Pro® SLV application system or as a free-flowing dry granular formulation (1177) for easy and convenient application.

## 1174 contains a unique blend of proprietary strains of *Lactobacillus plantarum* and *Enterococcus faecium* formulated to:

- Improve forage quality for silage with higher energy.
- Ferment forage faster to retain more energy.
- Reduce dry matter loss.
- Less runoff.
